

# SARISHMA ZIMBA

Full Stack Developer

Kathmandu, Nepal | 9843693768 | sarishma04@gmail.com | Portfolio: [sarishmazimba.info.np](https://sarishmazimba.info.np)

---

## PROFESSIONAL SUMMARY

Full-stack developer with hands-on industry experience building production web applications across React, TypeScript, Node.js, and Prisma. Skilled in REST API design, authentication systems, database integration, and building responsive, accessible interfaces. Proven ability to independently learn new technologies, identify and resolve production bugs, and translate business requirements into scalable software solutions.

---

## PROFESSIONAL EXPERIENCE

### Full Stack Developer — Himalaya Neo Tech

March 2026-August 2026 | Lalitpur, Nepal

### Web Development Intern — Sriyog

Oct 23 – Dec 23, 2025 | Kathmandu, Nepal

---

## PROJECTS

### Backend System

- Built a complete authentication system with OTP verification, JWT access/refresh tokens, refresh token rotation, and httpOnly cookie-based sessions.
- Implemented RBAC, rate limiting, account logout, password reset, session management, and TOTP-based MFA.
- Applied security practices including bcrypt password hashing, CORS configuration, CSRF/XSS mitigation, and refresh token reuse detection.

### HealthPal

- Developed the complete frontend and backend for a healthcare platform focused on improving transparency and accessibility in Nepal.
- Implemented features for doctor discovery, profiles, appointments, inquiries, and patient experiences.
- Built REST APIs and integrated them with the frontend using Express.js and MongoDB.
- Designed a responsive and user-friendly interface for patients, doctors, and healthcare organizations.

### Bijeshwori Mala Traders

- Developed the complete frontend for the Bijeshwori Mala Traders e-commerce website.
- Built responsive and user-friendly interfaces for product browsing, search, filtering, cart, wishlist, authentication, and order tracking.
- Developed the admin panel frontend for product and order management.
- Integrated frontend components with REST APIs.

---
